EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Mr. J. Cantor on March 05, 2004.

1. The application has been amended as follows: In the claims:

As requested, "multiply/accumulate" has been replaced with --multiply or accumulate -- in:

Claim 1, lines 7, 9, 15 and 16, ✓

Claim 5, lines 4, 5 and 8, ✓

Claim 7, line 2, ✓

Claim 8, line 2, ✓

Claim 9, lines 5, 7, 9, and 10, ✓

Claim 11, lines 4, 9, 12 and 13, ✓

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The present invention relates to an enhanced CDMA demodulation scheme for decoding CDMA signals in order to reduce interference due to communication overlap. The closest prior art of record, Gilhousen (US 5,715,236) and Hendrickson et al. (US 5,974,584) disclose a method for improving the quality of a received signal in which data is conveyed in very short segments and a bit is associated to each segment to identify at the receiving end. The loss of a segment is insignificant because of its size. However, Gilhousen and Hendrickson, singularly or combined fail to disclose the unique method steps of "determining if the analog results correspond to a predetermined digital state; generating a digital output, corresponding to an associated multiply or accumulator device comprising first and second series connected transistors providing multiplication operation (claim 14), and subtracting the output of each multiplication device, from analog results of each corresponding multiply or accumulator device, prior to input to data conversion device" (claims 1, 10, 14, 16 and 21). These significant features render the application claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M Qureshi whose telephone number is (703) 308 8542. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham can be reached on (703) 305 4378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
